## Agenda

### 1. Opening of the meeting

Domenico opens the meeting at 17:02

### 2. Setting the agenda:

Domenico states there are no agenda points for today because we are awaiting feedback on FSP and OER critiques.

### 3. Other updates

Zarah states that this morning the death of a student due to mental health issues came up. She asks if there is perhaps something the council can do for students' mental health. Katarzyna states that UvA is not doing enough. There are study psychologists available, but it takes up to two months to get an appointment and they cannot help students on non-study related topics. She also states that the responsibility for UvA is there, especially towards international students because they do not have the necessary information to get help by themselves, especially during covid times international students are isolated. Zarah states that perhaps the council can do that will provide students with information. Alla states that a post by Thomas, who is on this file, is coming up, but that the council does not have the power to provide proper information, while the university does. Domenico states that we should discuss further when Thomas is attending next PV. He also states mental health will be an agenda point next (G)OV.

Alla asks if we went to the Q/A of the CSR about the upcoming student council elections. Domenico states no one from the Fdr signed up and therefore he did not attend.
